

SUMMARY

A junior-year engineering student with a passion for turning ideas into digital reality. Whether it's crafting clean, responsive web designs or diving into AI/ML projects, I love blending creativity with logic. I believe tech should be exciting, so I make sure to keep the fun alive while building things that matter. Looking to grow, collaborate, and create work that's as impactful as it is professional.

WORK EXPERIENCE

- **WEB-DEVELOPMENT INTERN | CODSOFT**  
**JUNE 2025 - JULY 2025**
  - Developed and deployed responsive personal portfolio, e-commerce landing page, and calculator applications using HTML, CSS, and JavaScript.
  - Applied clean coding practices to ensure cross-browser compatibility and a smooth user experience.
- **AI USING PYTHON INTERN | COINCENT**  
**JUNE 2024 - JULY 2024**
  - Built a Sentiment Analysis project using Python and TensorFlow, applying Natural Language Processing (NLP) techniques.
  - Preprocessed large datasets to improve model accuracy and performance.
  - Documented code and workflows, making the project reproducible and easy to maintain.

PROJECTS

- **E-COMMERCE LANDING PAGE**
  - An e-commerce website's landing page for cosmetic products using just HTML and CSS
- **CALCULATOR WEB-APP**
  - A simple yet functional project built using HTML, CSS, and JavaScript, designed to perform arithmetic operations with a clean interface and reliable error handling.
- **PRODUCT INVENTORY MANAGEMENT SYSTEM**
  - GUI-based app using Tkinter and MySQL with features like order tracking, invoice generation, and stock visualization
- **HOUSEHOLD WASTE SEGREGATION IMAGE CLASSIFIER**
  - A Web app gamification experience using deep learning algorithms to separate household waste from images.

WORKSHOPS & HACKATHONS

- Smart India Hackathon - NOV 2024
- Innovate - X (Internal Hackathon) - 2025

EDUCATION

**2023 - 2027**  
**KARUNYA INSTITUTE OF TECHNOLOGY AND SCIENCES**

- Btech. Artificial Intelligence and Data Science

**CGPA: 9.44**

TECH-SKILLS

- C | Python | Java
- HTML | CSS | JavaScript
- Tailwind | React
- Tableau | PowerBI
- GitHub | Docker
- MySQL | PostgreSQL | MongoDB

SOFT-SKILLS

- Written Communication
- Record Keeping
- Teamwork
- Critical Thinking

LANGUAGES

- English (Fluent)
- Malayalam (Native)
- Hindi(B1)
- Spanish(A1)
- Tamil (A1)

EXTRAS

- Chess
- Reading
